

Quotes from South Carolina Candidates

From U.S. Representative James E. Clyburn

Candidate Question #4 – “I have fought my entire life against discrimination of any kind. As South Carolina’s Human Affairs Commissioner for nearly 18 years, I fought institutionalized discrimination, and I have continued that quest in the Congress. Just as I believe that ex-offenders deserve a Second Chance, I agree that those who have overcome addiction deserve the opportunity to become productive members of society.”

Candidate Question #5 – “Yes, every year I have sought to overturn the austere budgets put forth by the Bush administration and will continue to do so to preserve and strengthen problems like these.”

From U. S. Representative Joe Wilson

Candidate Question #5 – “I support recovery support services and will review the President’s budget to determine the needs of the program discussed.”

Both individuals supported parity legislation.
